PRESIDENT CEMETERY REGULATIONS

1. Eligibility for receiving a free lot in the Village Cemetery be restated along the following line:

A resident of two years' standing may have assigned to him without cost a lot in the Village Cemetery for use of his family when the need for such a lot arises. Former residency does not make him eligible. Husbands, wives and children and children's spouses and minor children constitute the family eligible for burial in the free lot. Residents without family will have single graves assigned to them. The cemetery has been divided into lots with space for six graves each with some containing a lesser number. The Selectmen will determine how the lots or graves are to be allotted. Once a lot has been properly assigned and the holder of the lot is no longer a resident of Town, the unused spaces in such lot will be held for his heirs for a period of fifty years unless application is made in writing to the Selectmen, setting forth for whom the spaces in the lot are to be held. This is to be retroactive.

2. A fee of \$10.00 is to be levied for each grave of a non-resident who qualifies for burial in a lot as set forth above. Such sums received will go towards the maintenance of the cemetery.

3. There are quite a number of unmarked graves and unknown graves. The Town will purchase temporary cast iron markers to be placed at the grave at the time of interment. Should the family fail to have a stone set within two years, the Town would furnish a small, plain stone with name only at the grave for future identification.

4. The Cemetery Committee is hereby dissolved and the responsibility for the cemeteries is returned to the hands of the Selectmen.

FIRE RECORD

Fire records are made by people—those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966.)

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town organization jointly carrying out programs of forest fire prevention, training and suppression with dedicated personnel.
2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us; (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish their brush burning fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 fires on this area and restricted acreage burned to 395 acres—a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 A. M. and 5:00 P. M. except on rainy days. Permits are not needed when the ground is covered with

snow. To minimize risk the best way to dispose of rubbish is at your authorized town or municipal dumping area.

2. Be sure all discarded smoking material is out.
3. Don't leave a live camp or cooking fire.
4. Most important—Instruct your children that matches are not playthings.
